BREN TULLY WALSH-GUITAR, VOCALS

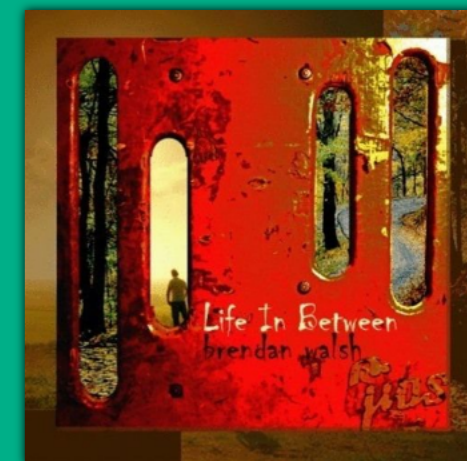

## A HOMESPUN ROADROCK TIME-MACHINE

Starfield Cookout is 70s rock radio like you've never heard it. A musical time machine down highway 1, to that honeyglow summer tour you may not remember, but you've definitely heard about; California-vibed jams, tripped, hypnotic, psychedelic rock, funk and soul wrapped around brilliantly beautiful, outrospective songcraft that sets hearts afloat.

## MEET THE BAND

Setting club and festival stages afire since their founding in 2022, the seasoned Montreal-based 4 piece is led by trans female singer guitarist Bren Tully Walsh, backed by virtuoso players Dom Hemalas (Drums), Jason Cochrane (Bass) and David Lines (Keyboards). The band's deep, Bay Rock, British Invasion and Tulsa Sound influences converge to create a new songbook, palette and musical universe all its own. The Band's deft, driving, dance-friendly grooves and improv bring Starfield Cookout's catalog of must-hear music to new and different heights at every show.

We urge you to give this important emerging music and its makers a listen.
